

Statutory Caveat

“The two (2) years regular B.P.Ed/M.P.Ed course in SIPEW, Hastings House is a fully residential course and candidate has to face vigorous/hard physical training and conditioning throughout the two years. Therefore the candidate must be medically fit and have enough physical fitness for application in this course. The student has to discontinue the course any time if she will found physically unfit for the course due to any kind of injury or illness as a result of the participation in the practical classes. College authority will not bear any financial liability or other responsibilities any kind of physical injuries or infirmities occur during the entire course period.”

I here by declare that I have read the statement of statutory caveat carefully and fully agreed with its term and conditions.
